BUJÍAS  
**HESCHER**®  
IGNICION

# LA EMPRESA

**Hescher®** es actualmente, una empresa consolidada a nivel internacional que se encuentra posicionada como líder del mercado argentino en el diseño, producción y comercialización de bujías para motores Diesel; siendo el primer referente de ventas en el sector aftermarket de autopartes.

**Nuestra misión:** fabricar respuestos de alta calidad utilizando materia prima de excelencia, con el objetivo de cumplir con nuestros requisitos de aptitud diferenciada.

**Nuestra visión:** ser reconocidos como líder en el diseño, fabricación y comercialización de autopartes en Latinoamérica y en todo el mundo, por parte de nuestros clientes, proveedores, consumidores y todos los grupos de interés relacionados con la actividad de nuestras compañía.

## NUESTROS VALORES:

- Construimos **relaciones cliente-vendedor** basadas en la consideración, el respeto, la responsabilidad y el profesionalismo; brindando así respaldo y seguridad.
- Promovemos la disciplina y el trabajo en equipo, para innovar en competitividad, procesos y producto final.
- Creemos en la capacitación activa del personal y el reconocimiento del esfuerzo y trabajo diario.
- Nos comprometemos con el cuidado del medio ambiente, haciendo un seguimiento de los insumos utilizados, de los procesos de fabricación y de la desposición de residuos, según las normativas vigentes.

Hoy con más de **70 años** de historia capitalizamos toda nuestra experiencia, ofreciendo un producto íntegramente argentino, confiable y de calidad inter-

nacional, exportando a más de **25 países** en todo el mundo.

El mantenimiento de nuestro compromiso con la calidad y la mejora continua, la seriedad con la que gestionamos la comercialización, la responsabilidad asumida, la credibilidad y fundamentalmente, el reconocimiento de la marca, dio origen a la expansión de la línea de productos **Hescher®**.

En los últimos años desarrollamos:

- **Bujías Hescher® Diesel**
- **Bujías Hescher® Nafta**
- **Bobinas de encendido**
- **Bombas de combustible**
- **Cables de bujías**
- **Motores paso a paso**

Con una propuesta de valor única y una innovación eficiente, dentro de la fabricación nacional, que nos permite cumplir los requerimientos de todas las marcas y modelos de vehículos de nuestro mercado, logramos que **Hescher®** sea un producto altamente confiable, probado y aprobado por los más exigentes usuarios y profesionales del transporte.

Finalmente, la coordinación dentro de nuestra logística interna y externa, nos permite cumplir con la entrega de la mercadería en tiempo y forma, y nos promete con nuestro principal objetivo, que es alcanzar la satisfacción permanente de los clientes que confían en nosotros.

Por eso, hoy como ayer, cuando busques un producto de alta calidad, confiabilidad y respaldo, elegí **Hescher®**.

**Bujías Hescher®,  
un paso adelante  
en el mundo...**

# BOMBAS ELÉCTRICAS DE COMBUSTIBLE

La bomba eléctrica de combustible (**B.E.C.**), forma parte del sistema de alimentación del automóvil. Aparece por primera vez en la década de los 80, cuando llegaron los sistemas electrónicos de inyección.

Desde entonces se equipa en la mayoría de los vehículos y tiene una función primordial: es la **encargada de bombear el combustible** que está en el depósito hacia los inyectores, para que después éstos lo pulvericen y se mezcle con el aire.

Dado que la presión de alimentación del combustible debe permanecer constante cualquiera sea el régimen del motor, éste es aspirado a un caudal mayor que el realmente necesario, volviendo el excedente nuevamente al tanque.

Puede estar instalada dentro del tanque (bomba sumergida) o fuera del mismo (bomba en línea). En la imagen se aprecia un corte de una B.E.C., con sus conductos de admisión y salida, el motor (rotor, escobillas, y estator), el anillo impulsor, y la válvula de retención.

Esta bomba no tiene mantenimiento interno ya que se trata de una pieza sellada.

## **POR QUÉ ELEGIR LAS B.E.C. :**

**EXCELENTE MATERIA PRIMA:** sólo se utilizan materiales de óptima calidad, esto se traduce en un mejor desempeño y mayor vida útil.

**TECNOLOGÍA SUPERIOR:** la calidad del producto y la consistencia en los procesos de fabricación está asegurada con el mantenimiento del Sistema de Gestión de la Calidad, cumpliendo con los requisitos exigidos por la Norma ISO/TS 16949:2009.

**CONFIABILIDAD:** el 100% de las B.E.C. son testeadas antes de ser embaladas para su venta, de este modo nos aseguramos de que el cliente obtenga un producto confiable y de excelente funcionamiento.

## **EL MEJOR DISEÑO:**

- Un anillo impulsor con 50 alabes distribuidos en su contorno, fabricado con un material especial, se encastra firmemente al eje del motor mediante una muesca.

- El rotor, que se apoya en bujes de bronce, con un balanceado electrónico de precisión, admite un nivel de operación de más de 7.000 r.p.m., reduciendo así el ruido, las vibraciones, y las presiones inestables del combustible.

- Un polímero fundido en la armadura protege a los devanados de la contaminación.

- Las escobillas poseen una superficie uniforme para lograr un contacto más efectivo. Se emplean materiales de avanzada tecnología (grafito-carbón), que prolongan su buen funcionamiento.

- Las bobinas de supresión de ruido reducen la interferencia de ondas de radiofrecuencia.

- La válvula de retención mantiene la presión del sistema de combustible entre los arranques, reduciendo los problemas de bloqueo por vapor y de arranque en caliente, y evita fugas de combustible en el caso de un vuelco del vehículo.

- Kit de instalación: muchos de nuestros modelos ofrecen una variedad de accesorios: filtro, abrazaderas, mangueras, sellos, arnés de conexión, etc., cubriendo las necesidades para una instalación completa.
